“Pacific Polytech” was established in 2014, and is a sole proprietorship-based entity in the market. The company is specialized in delivering the following products such as Sandwich Panels Puff, Rockwool Panels, EPS Panels, Puff Insulated Doors, etc. as per the customized requirements of the clients. Our company is offering the product to those companies developing the following products such as Cold Chain, Clean Room, Cold Room Doors, Clean Room Doors, Peb Structures, Refrigeration, HVAC, etc. Talking over strength, durability, and affordability is well tested before delivery to customers. Also, we have esteemed customers data-based that believe in our products’ service. Apart from this, our customers’ coordination team is always ready to look up the customer’s queries and provide them with a profitable solution.

Under the managementship of Mr. Abhijit Kodilkar (Project Manager) and Mrs. Lina Kodilkar (Owner), we are capable to sustain the market-leading companies to the best of our timings. Due to vast years of experience in the domain and clients oriented approach our company managers are capable to analyze the basic needs of customers and implement them accordingly. Also, With the established manufacturing firm based in Nashik, Maharashtra, we have been able to distribute the products across the Indian markets. Also, our logistic facility makes sure of the delivery of the product at the committed time of delivery so that customers can make more and more trust in the policy we design.

Clean Room Door

₹ 18000/- Pieces

Owing to high-tech quality material we are capable to deliver Clean Room Door as per the customized requirements of clients. The Interior and exterior portions are coated with G.I. powder with perfect finishing. It is highly corrosive resistive and widely used in construction buildings.

Product Details:

Material	Stainless Steel
Open Style	Hinged
Features	Easy to Clean, Easily Moveable
Condition	New
Application	Food Industry, Pharma Industry

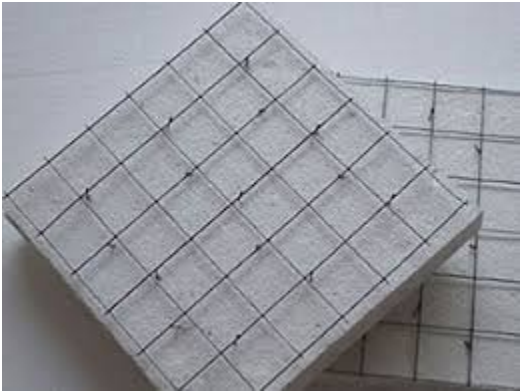

3D EPS Panels

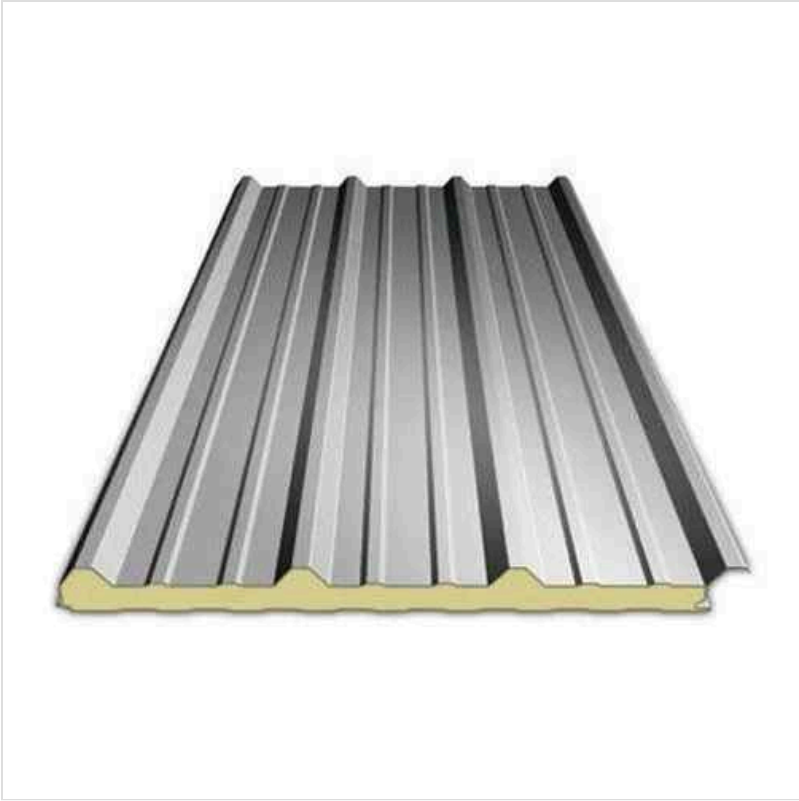

₹ 1800/- Square Meter

3D EPS Panels are supplied by our company according to the customer's needs. The EPS panels are used for exterior and interior load-bearing walls and floors in construction buildings. Some of the features of this material are eco-friendly, curing, cost-effective, and lighter which make it attractive.

Product Details:

Quality	Good Quality
GradeStandard	Construction Grade
Surface Finish	Coated
Application	Building Construction
Tensile Strength	2.34 Kg/cm3

Rectangular Puf Insulated Panel

₹ 1200/- Square Meter

Rectangular shape PUF Insulated Panel with polyurethane insulated material inserted between steel sheets. It is obstructive against heat, and sound, due to being thermal absorption. The shape of the Insulated Panel is rectangular, which is cut according to customers' needability.

Product Details:

Surface Finishing	Galvanised
Color	Silver
MOQ	50 Unit
Type	PUF Insulated
Supplier By	Pacific Polytech

Cold Room Door

₹ 36000/- Pieces

Cold Room Door is a sliding pattern door that have wide use in big-refrigerators doors, and chambers. Its unique design & technology make it a highly alluring material. The surface of this material is painted which makes it resistant to corrosion and make it highly durable.

Product Details:

Product	Cold Room Door
Application	Hospitals, Laboratories
Surface Finish	Polished
Color	White
Usage	Cold Storage

PIR Insulated Panels

₹ 1350/- Square Meter

Holding adroit professionals in our team we are offering the PIR Insulated Panels according to customers' necessity. PIR is heatproof material used in the chemical industry, refrigeration, construction industries, etc. It is featured heat and sound resistance.

Product Details:

Color	Silver, White
Usage	Industrial building roof & wall insulation
MOQ	100 Sq Mtr
Quality	Good Quality
Country of Origin	India

PIR Panels

₹ 1350/- per sq.mtr.

In PIR Panels, PIR stands for Polyisocyanurate, which is thermostatic material that has the best insulating features to resist heat and sound. Get is avail according to your requirements at cost-effective prices.

Product Details:

Pattern	Plain
Product	PIR Panels
MOQ	100 Sq Mtr
Shape	Rectangular
Surface Treatment	Polished

Home PUF Insulated Door

₹ 14400/- per door

Being a responsible supplier in the market our company offers Home PUF Insulated Door at economical prices. The door is PUF Insulated which is suitable to use as Cold Storage Room, Home outer doors, and many more. Its closure is sliding, inside, and outside directional.

Product Details:

Product Code	1673764
Supplier By	Pacific Polytech
Country of Origin	India
Surface Finish	Color Coated
Structurally Insulated	Yes
Color	Red

Sliding PUF Insulated Door

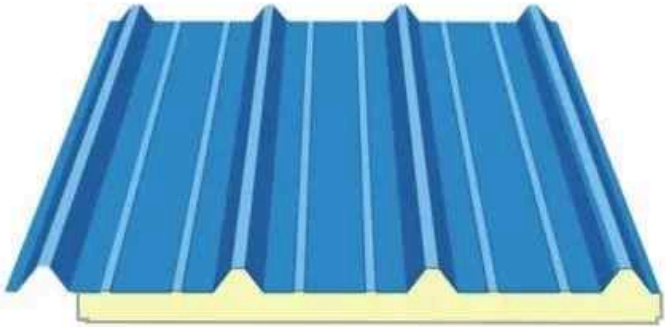

₹ 54000/- per door

We are offering a fine quality assortment such as Sliding PUF Insulated Door as per the customized requirements of customers. The door closure is a sliding pattern have excellent surface finishing. It is delivered to the customer's place after complete inscepcion.

Product Details:

MOQ	10 Unit
Product	Sliding PUF Insulated Door
Size	Customized
Material	PUF Insulation
Condition	New

Blue Sandwich PUF Insulated Panel

₹ 1170/- per sq.mtr.

Blue Sandwich PUF Insulated Panel is made up of optimum quality raw material with PUF Insulation. The polyurethane material inserted between metal sheets makes it insulating such that it absorbs the heat, and sound accordingly and makes the surrounding pleasure.

Product Details:

Usage	Residential & Commercial
Features	Heat Insulation, Excellent Moisture Resistance
Condition	New
Structurally Insulated	Yes
Tensile Strength	3.7 kg/cm

Home PUF Insulated Panel

₹ 1080/- per sq.mtr.

Our company indulges in supplying excellent quality Home PUF Insulated Panel, which is insulated with PUF material. Its quality parameters such as heat and sound absorption are well testified by the expertise of our company. It is widely used in construction buildings, houses, and roofing.

Product Details:

Type	PUF Panel
Material	Stainless Steel
Usage	Roofing
Panel Color	Brown
Technique	Auto

Jindal PUF Panel

₹ 1260/- per sq.mtr.

Jindal PUF Panel is lightweight with PUF insulated material, easily resisting all temperature conditions. The parameters of the Jindal PUF Panel such as color, polystyrene thickness, and polystyrene density are well-testify before placing it in the customers' place.

Product Details:

Waterproof	Yes
MOQ	50 Unit
Supplier By	Pacific Polytech
Type	PUF Panel
Color	Yellow

Roofing PUF Insulated Panel

₹ 1260/- per sq.mtr.

Reckoned with the high-leading company in the market we are supplying Roofing PUF Insulated Panel according to customers' credibility. To making the roofing, walling, hostile to the temperature, sound effects, and many more.

Product Details:

Surface Finishing	Galvanised
Features	Eco Friendly, Easy to Install
Deals In	New Only
Color	Sky Blue
Usage	Roofing

Sandwich Insulated PUF Panel

₹ 1260/- per sq.mtr.

We are continuously offering the best quality of Sandwich Insulated PUF Panel according to customers' requirements. The color pattern is available according to customers' requirements. In the pattern of insulation, PUF material is inserted between the panel sheets.

Product Details:

Material	PUF
Usage	Roofing, Wall Insulations
Product Name	Sandwich Insulated PUF Panel
Surface Finish	Polished
Features	Easy to use, Crack Proof, Durable

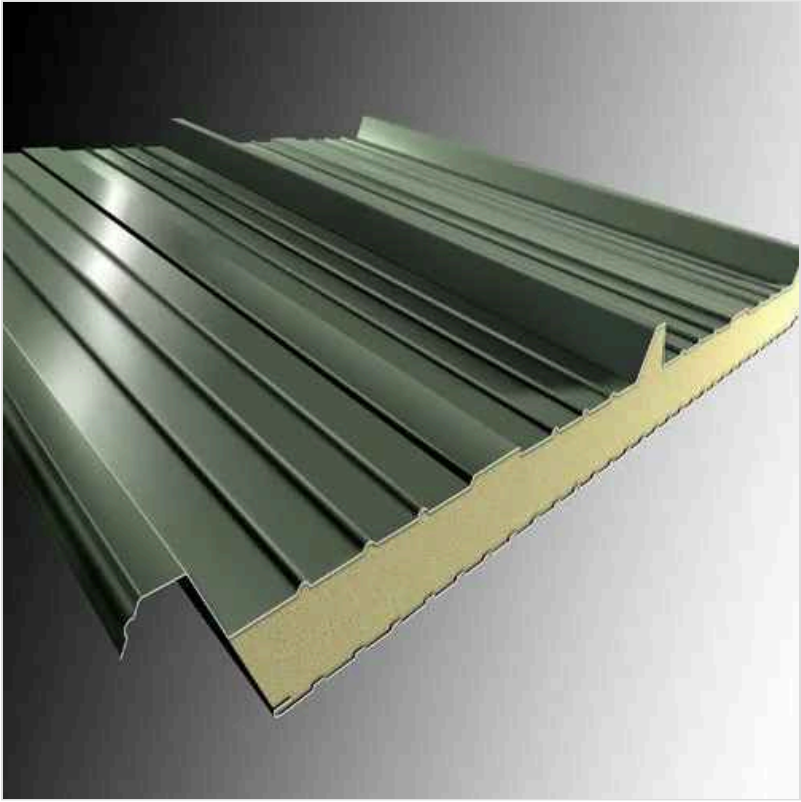

Structural PUF Insulated Panel

₹ 1080/- per sq.mtr.

In hot and moist weather, Structural PUF Insulated Panels play a significant role in making the eco-friendly and heat obstructive. Its structure and dimension are available according to customers' demands. Moreover, we dispatch it after deep inspection.

Product Details:

Product	Structural PUF Insulated Panel
Tensile Strength	3.7 kg/cm2
Technique	Cold Rolled
Color	Green
Type	PUF Insulated

PUF Slab

₹ 630/- per sq.mtr.

PUF (Polyurethane Foam) Slab is a high-quality insulation slab material designed to provide excellent thermal and acoustic insulation. It is composed of rigid polyurethane foam encased within durable facings. The PUF Slab is commonly used in cold storage, refrigeration units, industrial buildings, and HVAC systems applications. Get in bulk quantity for industrial and commercial applications. Some of the features below will keep high-quality products in industrial and commercial applications.

- Exceptional insulation properties
- Absorbs sound waves
- Moisture and Mold Resistance
- Available in various thicknesses and dimensions

Product Details:

Material	Polyurethane Foam
Size	All
Features	Moisture Resistant, Void Free Insulation, Fire Resistant
Surface Finish	Coated
MOQ	5 Unit

Rockwool Panel

₹ 1350/- per sq.mtr.

Rockwool Panel, a mineral wool panel, is a versatile insulation product made from natural rock fibres. It is widely used in commercial and industrial applications for its exceptional thermal and acoustic insulation properties. Moreover, its price suits the budget of all businessmen, either small or large.

Features Rockwool Panel Has:

- Reducing heat transfer and energy consumption due to excellent insulation
- Also, acoustic insulation and creating a quieter environment
- Fire-Resistant, Vapour Permeability, Robust and Durable

Product Details:

Condition	New
Product	Rockwool Panel
Features	Easy assembly, Easy to Install, Light Weight
Shape	Rectangle
Usage	Commercial

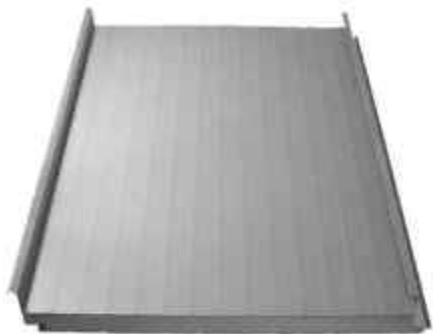

Hinged Door

₹ 27000/- per door

Hinged Door is attached to a frame with hinges, allowing it to swing open and closed easily. These doors are widely used in residential, commercial, and industrial buildings, providing security, privacy, and ease of access. It exhibits the following features Easy Operation, Security, Durability, Customization Options, Sound Insulation, Low Maintenance, and many more. Talking over its price, it is highly affordable and fits to needs of all people, either businessmen or manufacturers.

Product Details:

Supplier By	Pacific Polytech
Open type	Swing
Product	Hinged Door
Usage	Office
Technique	Auto

PUF Insulated Roofing Sheet

₹ 1260/- per sq.mtr.

For thermal insulation and weatherproofing for buildings, the PUF Insulated Roofing Sheet is available at a nominal price. The sheet consists of an outer metal layer and a polyurethane foam core, offering superior insulation and protection against harsh weather conditions. We are offering the committed time of delivery according to the industrial and commercial requirements of customers.

The features it retains are:

- Thermal Insulation
- Weather Resistance
- Lightweight and Durable
- Fast Installation
- Versatile Application
- Energy Efficient
- Fire Safety

Product Details:

Supplier By	Pacific Polytech
Surface Treatment	PUF Insulated
Condition	New
MOQ	5 Unit
Technique	Auto

Rectangular PIR Panel

₹ 1530/- per sq.mtr.

Rectangular PIR (Polyisocyanurate) panels are offered by us as insulation material known for their high thermal performance. These panels consist of a foam core sandwiched between two rigid facings, providing excellent insulation and structural stability. Its quality standards are well managed so that whatever customers require, we deliver at customers' destinations. Apart from all this, we keep all this at a profitable price along with attractive features such as Superior Thermal Insulation, Lightweight and Strong, Moisture Resistance, Versatile Applications, Acoustic Insulation, etc.

Product Details:

Type	PIR
Deal In	New Only
Technique	Auto
Country of Origin	India
Product	Rectangular PIR Panel

Sliding Door

₹ 54000/- per door

Sliding horizontally door along a track, a Sliding Door is the best quality material, that is well furnished with features such as excellent space-saving solutions, effortless and quiet operation, even with heavy doors, available in various designs, including glass panels, wooden frames, or metal frames, allowing for customization to match different interior aesthetics, and many more. Our marketing team will deliver it at the best price that fits small businesses and large businessmen.

Product Details:

Sliding Door Type	Folding Doors, Closet Doors, Partition Doors
Product	Sliding PUF Insulated Door
Condition	New
Usage	Industrial
Supplier By	Pacific Polytech

Puf Slabs

₹ 630/- per sq.mtr.

At Pacific Polytech, we proudly offer high-quality Puf Slabs designed to meet the diverse needs of our wholesale customers. Puf Slabs, or polyurethane foam slabs, are essential components for a variety of industrial and commercial applications.

Applicable At:

Puf Slabs are versatile and are utilized in:

- **Construction:** For insulation in walls, roofs, and floors to improve energy efficiency.
- **Refrigeration:** In commercial refrigeration units and cold storage facilities to maintain optimal temperatures.
- **Packaging:** For protective packaging to ensure safe transportation of sensitive goods.
- **Furniture:** As cushioning material in sofas, mattresses, and other upholstered products.
- **Soundproofing:** In acoustic panels and soundproofing installations to enhance noise control in various environments.

Quality Satisfaction:

We ensure that our Puf Slabs meet stringent quality standards:

- **Durability:** Our slabs are designed to be long-lasting, maintaining their insulating and cushioning properties over time.
- **Thermal Insulation:** They offer excellent thermal resistance, contributing to significant energy savings and comfort.
- **Fire Resistance:** We provide options with enhanced fire-retardant properties, meeting various safety standards.
- **Consistency:** Uniform density and thickness ensure reliable performance across different applications.

Features With:

- **High Insulating Efficiency:** Provides superior thermal insulation to reduce energy costs and improve comfort.
- **Custom Sizes and Shapes:** Available in various dimensions to suit specific needs, minimizing waste and optimizing use.
- **Lightweight Yet Strong:** Easy to handle and install, without compromising on strength and durability.
- **Eco-Friendly Options:** We offer environmentally friendly formulations that comply with sustainability standards.

XPS Insulation Board

₹ 270/- per sq.mtr.

XPS (Extruded Polystyrene) insulation boards are high-performance thermal insulation materials made from polystyrene. These boards are characterized by their closed-cell structure, which provides excellent thermal resistance and moisture resistance. At Pacific Polytech, we specialize in supplying high-quality XPS insulation boards for a range of wholesale needs.

Applicable At:

XPS insulation boards are versatile and are commonly used in various construction and building applications, including:

- **Wall Insulation:** For both interior and exterior walls, improving energy efficiency and thermal comfort.
- **Roof Insulation:** Ideal for both flat and pitched roofs, ensuring effective thermal regulation and reducing heat loss.
- **Floor Insulation:** Provides a durable layer for underfloor insulation, suitable for both residential and commercial projects.
- **Foundation Insulation:** Protects foundations from moisture and temperature variations, enhancing building longevity and performance.
- **Green Roof Systems:** Used in lightweight and drainage systems for green roofs, supporting sustainable building practices.

Quality and Satisfaction:

Our XPS insulation boards are manufactured to the highest standards, ensuring consistent quality and performance. We work with reputable suppliers who adhere to strict quality control processes, guaranteeing that our products meet industry specifications and provide long-lasting durability.

Puf Insulated wall panels

₹ 1150/- per sq.mtr.

Pacific Polytech proudly offers high-quality PUF Insulated Wall Panels, designed to meet the needs of a variety of industrial and commercial applications. These panels are essential for creating energy-efficient, temperature-controlled environments. Ideal for use in warehouses, cold storage facilities, clean rooms, and commercial buildings, our panels provide exceptional thermal insulation and structural integrity.

Applicable At:

- **Cold Storage Facilities:** Maintains optimal temperatures for perishable goods.
- **Industrial Warehouses:** Provides energy efficiency and climate control.
- **Clean Rooms:** Ensures a sterile environment for sensitive processes.
- **Commercial Buildings:** Enhances building insulation and reduces energy costs.
- **Modular Construction:** Ideal for prefabricated and quick-installation projects.

Quality Assurance:

- **Durability:** Panels are designed to withstand harsh environmental conditions and provide long-term performance.
- **Consistency:** Manufactured to meet rigorous quality control standards, ensuring uniformity in thickness and finish.
- **Energy Efficiency:** High thermal insulation properties contribute to reduced energy consumption and operational costs.
- **Hygiene:** A smooth surface finish allows for easy cleaning and maintenance, crucial for applications like clean rooms and food storage.

Features:

- **Superior Insulation:** PUF core provides outstanding thermal insulation, reducing heat transfer and enhancing energy efficiency.
- **Weather Resistance:** Panels are designed to resist moisture, corrosion, and UV radiation, ensuring longevity and minimal maintenance.
- **Ease of Installation:** Modular design with interlocking systems facilitates quick and efficient installation, reducing labor costs.
- **Customization:** Available in various sizes, thicknesses, and finishes to meet specific project requirements.
- **Aesthetic Flexibility:** Pre-coated surfaces offer a range of colors and finishes, enhancing the visual appeal of the installed panels.

Product Details:

Clean Room Panel System

₹ 1800/- per sq.mtr.

The Clean Room Panel System is designed to create and maintain controlled environments for critical applications. It is ideal for laboratories, pharmaceutical facilities, electronics manufacturing, and other settings where cleanliness and contamination control are paramount.

Product Details:

Finish	Powder-coated or laminated
Dimensions	Customizable panel sizes
Core	Mineral wool or polyurethane foam
Style	Modern
Fire Rating	Compliant with local and international fire safety standards

Puf Insulated Roofing Panels

₹ 1260/- per sq.mtr.

PUF Insulated Roofing Panels offer excellent thermal insulation and weather resistance. They are used in various applications including industrial buildings, warehouses, and commercial properties.

Product Details:

Finishing	Painted
Thickness	Ranges from 30mm to 150mm
Type	Roofing Panel
Width	Usually 1m or 1.2m
Core Density	40-42 kg/m³

Puf Insulated Doors & Partitions

₹ 18000/- per door

PUF Insulated Doors and Partitions are used to create thermal barriers in environments where maintaining temperature control is crucial. They are ideal for cold storage, clean rooms, and industrial settings

Product Details:

Material	Pre-coated metal sheets with a PUF core
Size Options	Customizable sizes
Condition	New
Features	High insulation value, durability, and easy to clean surfaces
Thermal Conductivity	Approximately 0.022 W/m·K

Cold Room Doors

₹ 36000/- per door

Cold Room Doors are designed for use in refrigeration and cold storage environments. They are built to withstand low temperatures and maintain energy efficiency. Get in Bulk

Product Details:

Fire Rating	Options available based on needs
Operation	Manual or automatic options
Size Options	Customizable sizes
Door Thickness	80mm to 120mm
Color	Multicolor

Cold Room & Storage Solutions

₹ 270000/- per cold room refrig

Cold Room & Storage Solutions provide comprehensive systems for managing temperature-sensitive goods. They are suitable for food storage, pharmaceuticals, and other perishable products.

Product Details:

Size	Customizable based on storage needs
Construction	Modular panels, insulated door
Surface Finish	Painted
Panel Material	PUF or EPS with a high R-value
Flooring	Anti-slip, hygienic

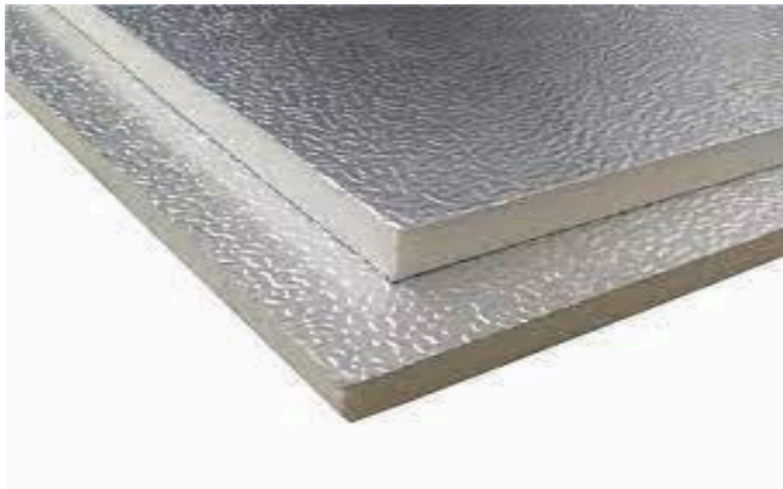

PIR Panel

₹ 1450/- per sq.mtr.

PIR Panels (Polyisocyanurate Panels) are high-performance insulation panels used for building envelopes, roofing systems, and cold storage solutions. They offer superior thermal insulation compared to other materials.

Product Details:

Thickness	Commonly 40mm to 120mm
Material	Pre-painted metal sheets with a PIR core
Surface Finish	Polished
Fire Rating	Class B-s1,d0 or as per local standards
Shape	Rectangle

Insulated Roofing Sheets

₹ 1260/- per sq.mtr.

Insulated Roofing Sheets are designed to provide thermal efficiency and weather protection for various building types. They are commonly used in commercial and industrial applications.

Product Details:

Finishing	Glossy
Color	Solid Color
Material	Galvanized or coated steel sheets
Width	Standard widths of 1m or 1.2m
Thickness	20mm to 100mm

EPS Cement Panels

₹ 63/- per sq.ft.

EPS Cement Panels are lightweight, durable panels used for walls, partitions, and ceilings. They combine the thermal insulation properties of EPS (Expanded Polystyrene) with the durability of cement.

Product Details:

Fire Rating	Varies by panel type
Pattern	Solid
Size	Standard
Surface Finish	Coated
Application	Commercial use
